Certificate II in Leather Production MST20316

School-Based Leatherwork Training

Leatherwork is an art that beautifully blends design and functionality. Come and learn from our wonderfully skilled and creative trainers how to take a piece of leather and then design and craft it into beautiful leather products.

Pathways

Employment

- Shoe repairing
- Leather production worker
- Shoe production

Study

- Cert III in Footwear
- Cert III in Applied Fashion Design and Technology
- Cert III in Textile Production

Leather Production is an area that allows you to take your creative design concepts and turn them into reality.

Designing and making leather goods can not only take you into a variety of trades like shoe repairing, saddlery, or bespoke shoemaking, but it can also launch you anywhere in the TCF (Textile Clothing & Footwear) industry such as fashion design, textile production, or even millinery.

We run our courses on-site at our centre at 36 Corunna st Albion or off-site at school locations all across South East Queensland.

If you are interested in attending this course, or your school facilitating a course please call on 07 3161 0021 or email on hello@tlcentre.com.au.

Alternatively you can Visit www.tlcentre.com.au for more information.

Tactile Learning Centre

Tactile learning Centre has been established to provide training and education in a holistic and practical approach. We not only teach students practical skills but we teach them life skills that they can use to benefit their everyday lives and especially their future.

Our trainers not only hold industry relevant and well-practiced hand skills but they are also passionate to impart positive life skills and inspire creativity and hope to our students.

Course Units

MSS402051	Apply quality standards
MSTLG3002	Cut leather by hand
