Thank you to our School Support Staff!

Business Managers, Administration Officers, Schools Officers, IT Officers, Science Technicians, Speech Language Pathologists, Occupational Therapists, Physiotherapists, Agricultural Assistants, Unit Support Officers, Community Liaison Officers, Community Education Counsellors, Youth Support Coordinators, VET Coordinators and all our school support staff make great education happen! School communities need expert, dedicated and skilled school support staff. In this week it's time to celebrate these unsung heroes of state schooling!

Thanks for all you do to ensure we have safe, engaging and appropriate learning environments. Thanks for all you do to provide support and engagement for EVERY student. Thanks for everything you do to make great education happen!

In 2020 we know that you have all been going above and beyond to support the whole community during the pandemic! In 2020 we are also delighted to see QSuper providing wonderful recognition for School Support Staff with the opportunity to win a prize for an outstanding staff member and also their school. See right for more details.

QSuper is inviting the school community to nominate a school support worker for a chance to win one of seven prize packs valued at **\$1,000 for your school** and a **\$200 voucher for the nominee**. To enter, in 25 words or less: share a moment when a school support worker made education happen.

Thank  to school support staff
